

Assessment Requirements

Year 9 HTML

Make a website that has these aspects:

1. An index.html file
2. A style.css file
3. A second page that links via a navigation bar – a home page (index.html) and one other page.
4. Two images on each page – that's four different images in total.
5. A different banner on each page
6. A background colour on each page – should be the same colour
7. All text is the same size
8. Headings text is a different size to paragraph text
9. There should be an ordered list on one page
10. There should be an UNordered list on a different page
11. Content should be interesting and valid.
12. No profanity of any kind.

WHAT TO DO

1. Make a folder called LASTNAMEfirstname_WEBSITE ASSESSMENT
2. Save all your files into this folder
3. Think of a theme (say Cakes)
4. Find a banner for your site (you only need one)
5. Find six 'cake' images
6. Save them all into your folder.
7. Create your index.html page
8. Create your style.css page
9. Populate it with text and two images
10. Create a second page and fill that with content
11. Create a third page **IF YOU HAVE TIME** [for Excellence]
12. Link all pages
13. Format all pages to look nice.
14. Once finally finished – COPY your site into the shared folder.
15. You have three lessons to complete this.
16. **NO COPYING OFF OTHER PEOPLE**
17. **NO SHARING OF FILES**
