

Assessment Requirements

Year 9 HTML

Make a website that has these aspects:

1. An index.html file
2. A style.css file
3. For MERIT - a second page that links via the navigation bar – so that's the home page (index.html) and one other page.
4. For EXCELLENCE – a third page that links via the navigation bar.
5. Two images on each page – that's four images for Merit and six images if going for Excellence.
6. Different images on every page
7. A different banner on each page – the banner does not count as an image.
8. A background colour on each page – should be the same colour for all the website
9. All text is the same size
10. Headings text is a different size to paragraph text
11. Content should be interesting and valid.
12. No profanity of any kind.

WHAT TO DO

1. Make a folder called MyNameHere_Website Project
2. Save all your files into this folder
3. Think of a theme (say Cakes)
4. Find a banner for your site (you need one for each page)
5. Find four - six 'cake' images (2 per page)
6. Save them all into your folder.
7. Create your index.html page
8. Create your style.css page
9. Populate it with text and two images
10. Create a second page and fill that with content [for Merit – total of 4 images]
11. Create a third page **IF YOU HAVE TIME** [for Excellence – total of 6 images]
12. Link all pages
13. Format all pages to look nice.
14. DELETE all the files and images you do not need.
15. Once finally finished – COPY your site into the shared folder.
16. You have four lessons to complete this.
17. **NO COPYING OFF OTHER PEOPLE**
18. **NO SHARING OF FILES**
19. **Hand in this Friday.**
